# **SITUATION SUMMARY**

## **Bouquet Canyon Proclamation, Los Angeles County:**

A Proclamation from Los Angeles County has been received proclaiming the existence of a local emergency as a result of the Bouquet Fire of May 11-13, 2002, the 2004/2005 Winter Storm Disaster, and the October 22, 2007 Buckweed Fire greatly increasing sediment deposits and reducing the flood carrying capacity of Bouquet Canyon Creek. In addition, the proclamation requests a Cal OES Director's concurrence and a Governor's Proclamation be provided under CDAA, as well as State agencies waiving regulations as necessary. Also, a copy is requested to be forwarded to all appropriate Federal agencies requesting similar actions.

## **Current Weather:**

### **Northern California**

General rain accumulations in Northern California in the past 24 hours have ranged between 0.03 inches in Chico to 1.26 inches in the Mining Ridge area of Monterey County. Watershed areas in northern California generally received less than 1 inch of precipitation with the Shasta Dam area receiving 0.28 inches of precipitation in the last 24 hour period. The remainder of the forecasted area has received 0.01 inches – up to 1.16 inches.

### **Current average snow water equivalents, percent of normal for this date**

North: 19 percent (8 percent increase in 96 hours)

Central: 37 percent (8 percent increase in 96 hours)

# **SIGNIFICANT EVENTS / ACTIVITY**

## **Cal EOC Incident – 2014 Drought**

**Situational Summary: (No change) Next report Monday March 3, 2014**

- The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State for several months. Negative economic impacts will also result. The Governor has established a Drought Task Force to prioritize State actions needed to address these conditions. Governor Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions. The State Operations Center (SOC) is activated to implement objectives in support of the Governor's priorities.
- Many local jurisdictions have enacted water conservation measures. The Office of Emergency Services is in close contact with counties and local officials to monitor the water conditions, agriculture and economy.
- As a result of the drought DWR has informed the customers of the State Water Project (SWP) that deliveries in 2014 will be discontinued if current dry conditions persist. Deliveries to agricultural districts with long-standing water rights in the Sacramento Valley may be cut 50 percent (the maximum permitted by contract) depending upon future snow survey results. Storage in key reservoirs now is lower than at this time in 1977, one of the two previous driest water years on record. While additional winter storms may provide a limited boost to reservoir storage and water deliveries, it would need to rain and snow heavily every other day from now until May to get us back to average annual rain and snowfall. The allocation may change depending on future storm events.

## Current 2014 – Winter Storms

- **2014 California Winter Storms Report – Attached (Final)**

### Declarations/Resolutions/Proclamations

- **Monterey County Proclamation Due to the Forecasted Series of Storms:**

Monterey County has proclaimed the existence of a local emergency due to a series of storms and related weather events, commencing on or about February 26, 2014 continuing through Sunday, March 2, 2014 causing flooding, mud and debris flow in areas extremely vulnerable to these threats due to post Pfeiffer Fire wildfire in December 2013. Immediate action is necessary to mitigate the effects of the local emergency; and this emergency does not permit delay from competitive solicitation to let contracts for bids. No state assistance is being requested and no Governor's Proclamation is being requested. Cal OES Coastal Region is dispatching staff to Monterey County to identify needs and provide necessary resource support from the State. Update: Monterey County EOC did not activate on Friday, 2/28/2014. Cal OES Coastal Region Emergency Services Coordinator was demobilized.
